## Specific solutions for remote workforce security

- ESET Endpoint Protection**  
Perfect for your remote workforce: Deploy to Android, PC & iOS in minutes. Secure data and devices for all your employees—wherever they are.
- ESET Full Disk Encryption**  
Keep data unreadable by unauthorized users by encrypting system disks, partitions and entire drives on PCs and laptops.
- ESET Secure Authentication**  
Protect open source VPNs and block unauthorized access to employee devices, which are vulnerable to loss or theft, with this easy-to-implement two-factor authentication.
- ESET Dynamic Threat Defense**  
Improve your protection against ransomware and other threats transmitted via emails and fake websites by detecting and blocking malware before it can execute.
